EXPERIENCE (5 YEARS+)

[Seamless HR, Africa](#) — *Mid-Senior Frontend Engineer*

November 2023 - PRESENT (Full-time)

- Integrated AI chat, feeding it payroll cycle data for real-time, context-aware assistance
- Consistently delivered ahead of schedule, surpassing stakeholder expectations.
- Led migration from Vue2 to Vue3, ensuring scalability and future readiness.
- Integrated Mixpanel for robust event tracking, improving user experience insights.
- Enhanced accessibility and security with ARIA labels and secure environment file storage.

[Handson, Nigeria](#) — *Product Manager & Frontend Engineer*

3 Months (Contract)

- Led the development of Nigeria's first e-commerce **construction** platform with delivery, filling a major market gap.
- Built an admin dashboard for product management, business analytics, and actionable insights.
- Designed a delivery pricing formula that balanced business goals with user satisfaction.

- Developed advanced features like powerful search, bulk product addition, and seamless shopping.
- Delivered two weeks earlier than scheduled.

Cykmore, United Kingdom — *Lead Frontend Developer*

March 2023 - March 2024

- Led a team to deliver an MVP **30% ahead of schedule**, streamlining workflows and boosting productivity.
- Resolved critical Nuxt & Vuex bugs, improving application stability and performance.
- Collaborated with designers and backend engineers to **optimize API interactions** and ensure seamless frontend-backend integration.

Scelloo, Nigeria — *Lead Frontend Developer*

March 2022 - Sept 2023

- Translated Figma designs into fully functional web pages using Vue, Vuex, and Tailwind CSS.
- Worked in a **13+-member team**, managing large codebases and project timelines with GitHub, Jira, and Slack.
- Assisted **6+ team members** in resolving bugs while ensuring consistency in branding and UI standards.

EDUCATION

University of Jos, Nigeria — *BSc. Veterinary Medicine*
